MEMORANDUM FOR THE RECORD

SUBJECT: HSCA Report

DD/A Registry
File _____

1. Yesterday, 5 March 1979, Messrs. [redacted]
[redacted] and I went to the HSCA offices and read the draft final report. We prepared a four page package of security questions, and a thirteen page package of factual and substantive comments. We broke up about 8:30 p.m. last night. [redacted]

2. This morning, Messrs. [redacted] and I met with G. [redacted] Chief Counsel, and addressed the security issues. We agreed to formulas for saying most of the things he wanted to say. There are one or two border-line issues on which we agreed and they, I believe, do not reveal sources and methods, though they might raise questions in one or two instances. There is no mention of the [redacted] Station or CIA activities there. [redacted]

3. [redacted] intends to submit the sanitized and unclassified draft report to the Committee members. His assumption is that leaks may come now, but that we have at least deleted security leaks. As we have not addressed the substantive issues, such leaks as may occur may include factual presentations with which we take strong issue. [redacted] intends to contact us the first of next week to review the substantive issues prior to the final report. [redacted]

4. The FBI has a number of problems still unresolved, although my impression is that the issues are essentially substantive rather than security in nature. [redacted]
